

# Feed me, Feed me

An Exemplar for Engineering Adaptive Software

Amel Bennaceur<sup>1</sup>, Ciaran McCormick<sup>1</sup>, Jesús García Galán<sup>2</sup>, Charith Perera<sup>1</sup>, Andrew Smith<sup>1</sup>, Andrea Zisman<sup>1</sup> and Bashar Nuseibeh<sup>1,2</sup>

<sup>1</sup> The Open University, UK

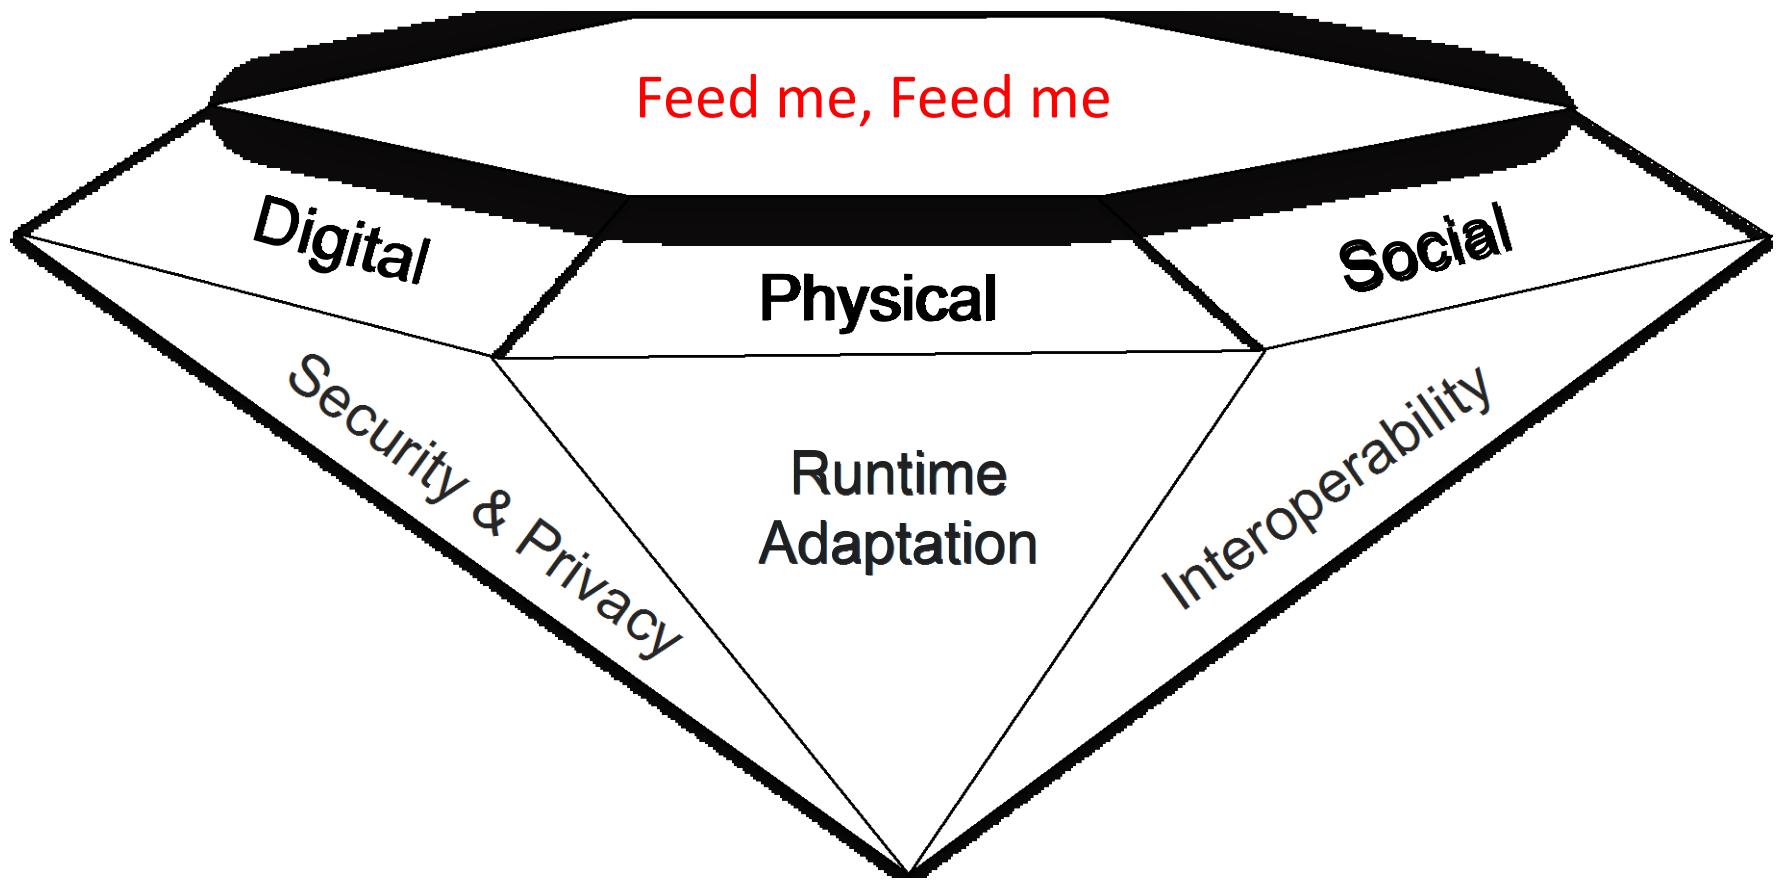

<sup>2</sup> Lero, Ireland

# Exemplars for Adaptive Software

- ↗ Exemplars\*
  - ↗ Description of a typical problem in some application domain
  - ↗ e.g., meeting scheduler, lift management, ...
  - ↗ Drive, communicate, and compare research
- ↗ SEAMS Exemplars <http://self-adaptive.org/exemplars>

(\*) Feather et al., Requirements and Specification Exemplars, ASE Journal, 1997

# The Many Facets of Adaptive Systems

# Demonstrator

<https://www.youtube.com/watch?v=pQdGoLSIXIM>

# Methodology

## ➤ ContraVision\*

- Explores users' reactions to futuristic or controversial technology
- Positive and negative versions of the same story
- Elicit a wide spectrum of requirements

(\*) Mancini et al., Exploring Users' Reactions to Futuristic Technology, CHI 2010

# User Perception of Technology

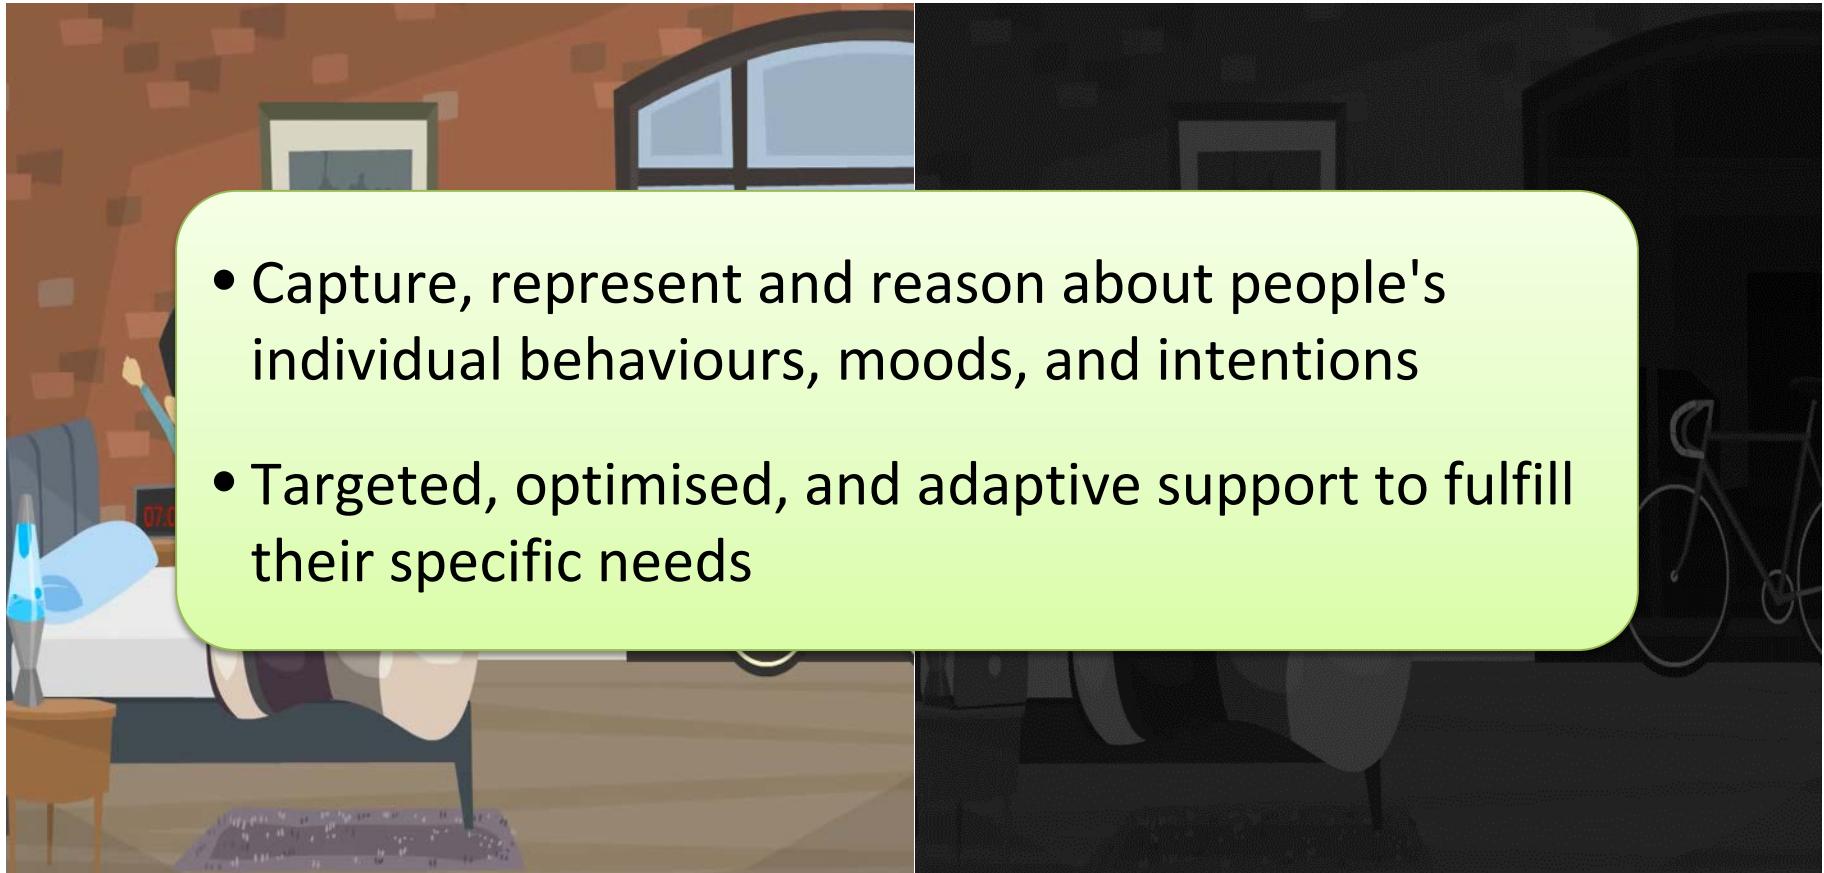

[www.youtube.com/watch?v=pQdGoLSIXIM](https://www.youtube.com/watch?v=pQdGoLSIXIM)

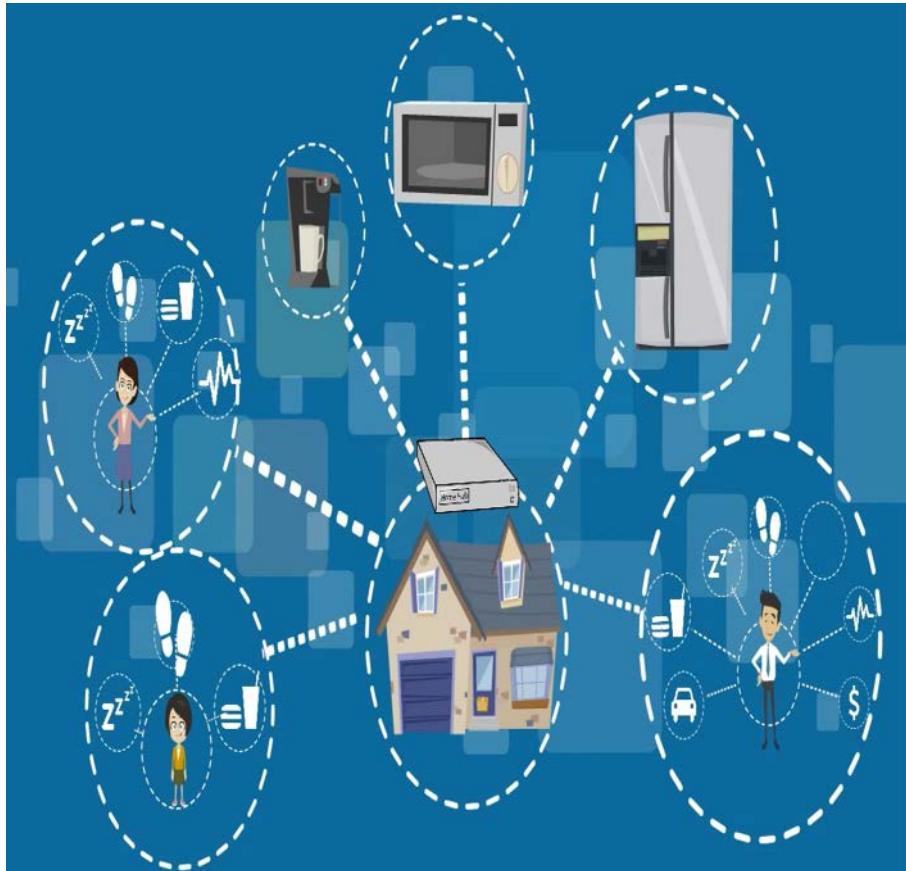

[www.youtube.com/watch?v=rN\\_2HLsKlZY](https://www.youtube.com/watch?v=rN_2HLsKlZY)

# User Perception of Technology

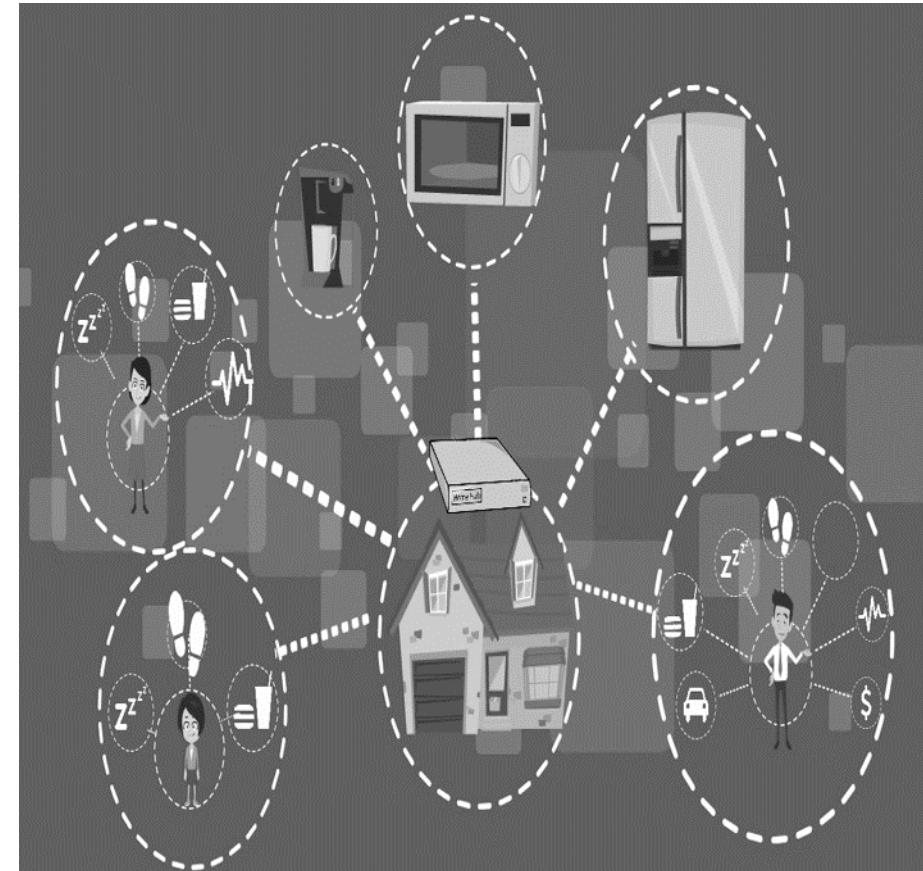

- Capture, represent and reason about people's individual behaviours, moods, and intentions
- Targeted, optimised, and adaptive support to fulfill their specific needs

# Runtime Adaptation

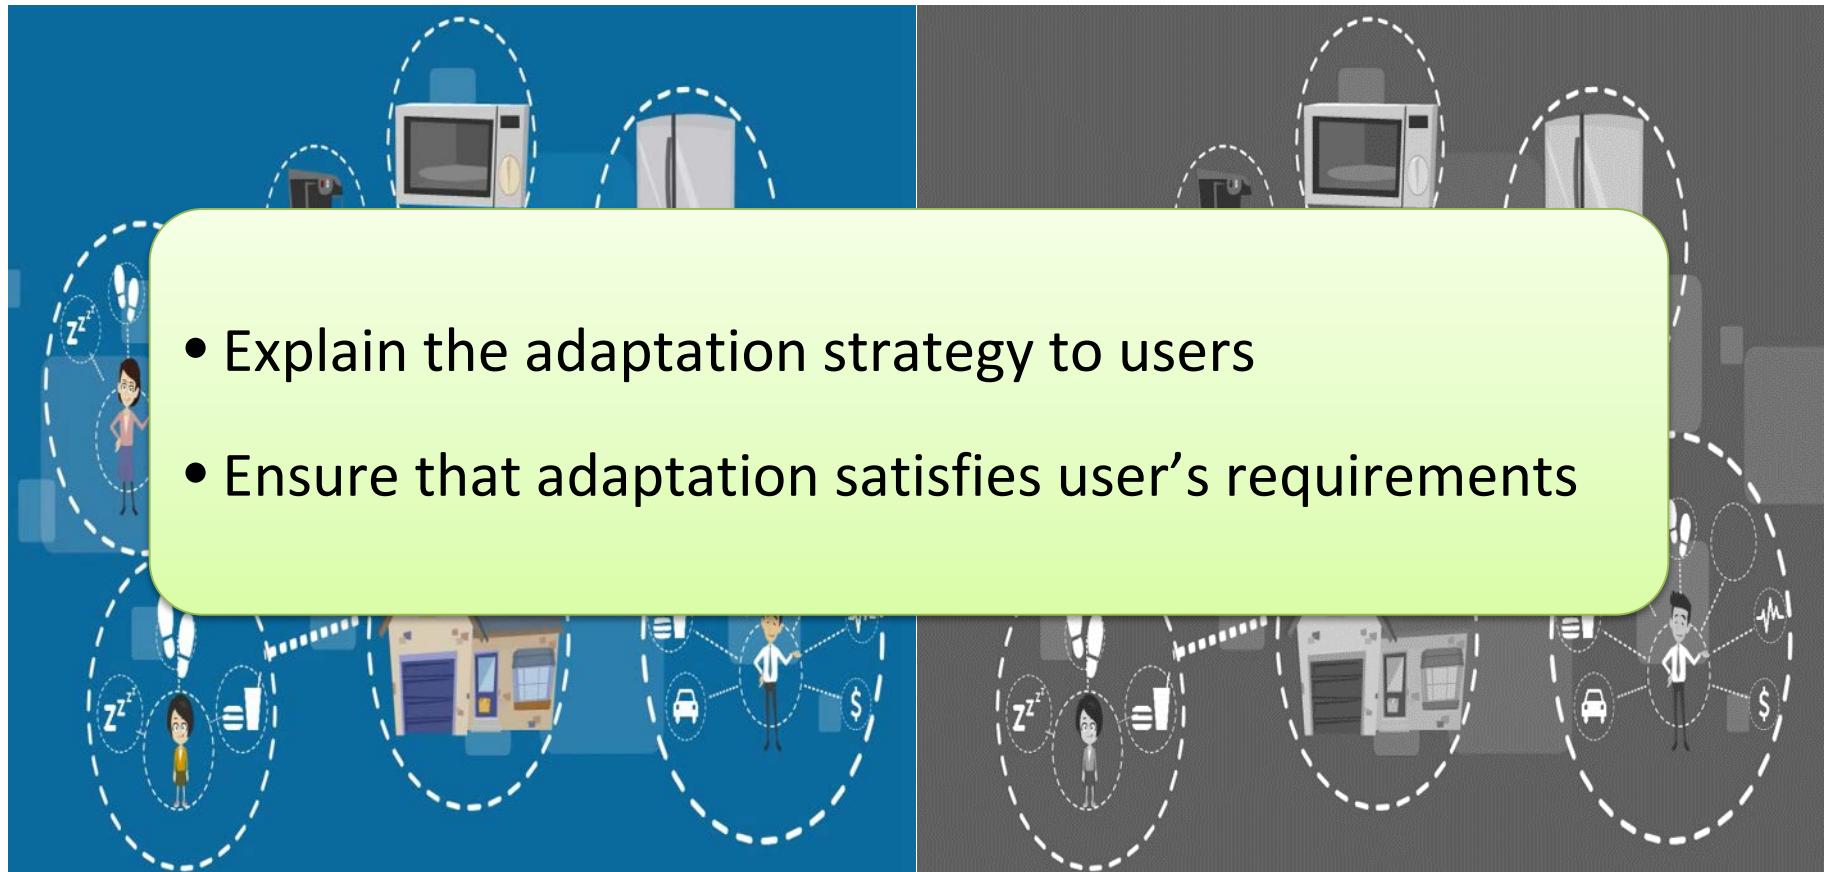

[www.youtube.com/watch?v=pQdGoLSIXIM](https://www.youtube.com/watch?v=pQdGoLSIXIM)

[www.youtube.com/watch?v=rN\\_2HLsKlZY](https://www.youtube.com/watch?v=rN_2HLsKlZY)

# Runtime Adaptation

- Explain the adaptation strategy to users
- Ensure that adaptation satisfies user's requirements

# Security & Privacy

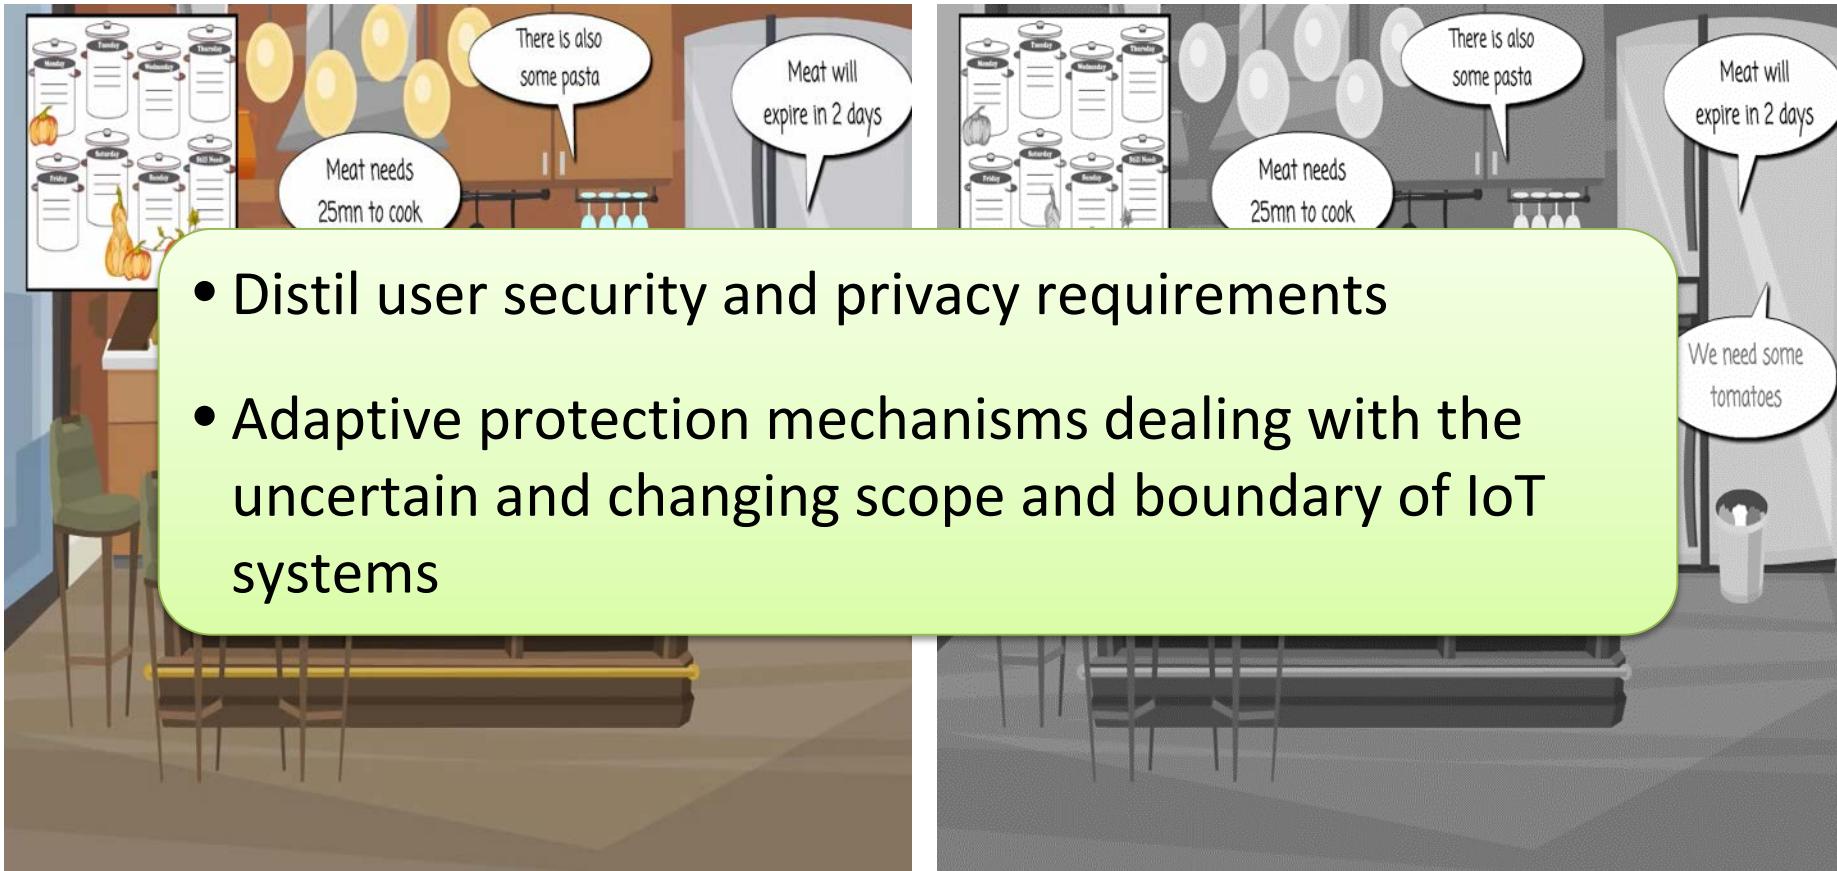

[www.youtube.com/watch?v=pQdGoLSIXIM](https://www.youtube.com/watch?v=pQdGoLSIXIM)

[www.youtube.com/watch?v=rN\\_2HLsKIZY](https://www.youtube.com/watch?v=rN_2HLsKIZY)

# Security & Privacy

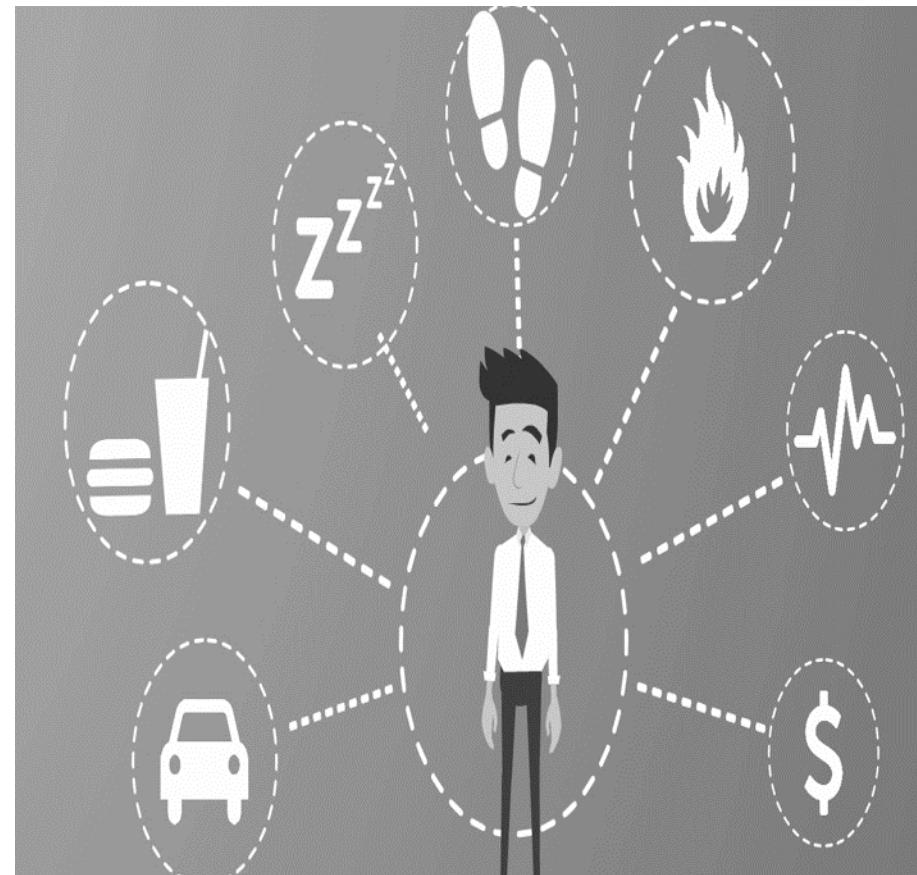

- Distil user security and privacy requirements
- Adaptive protection mechanisms dealing with the uncertain and changing scope and boundary of IoT systems

# Interoperability

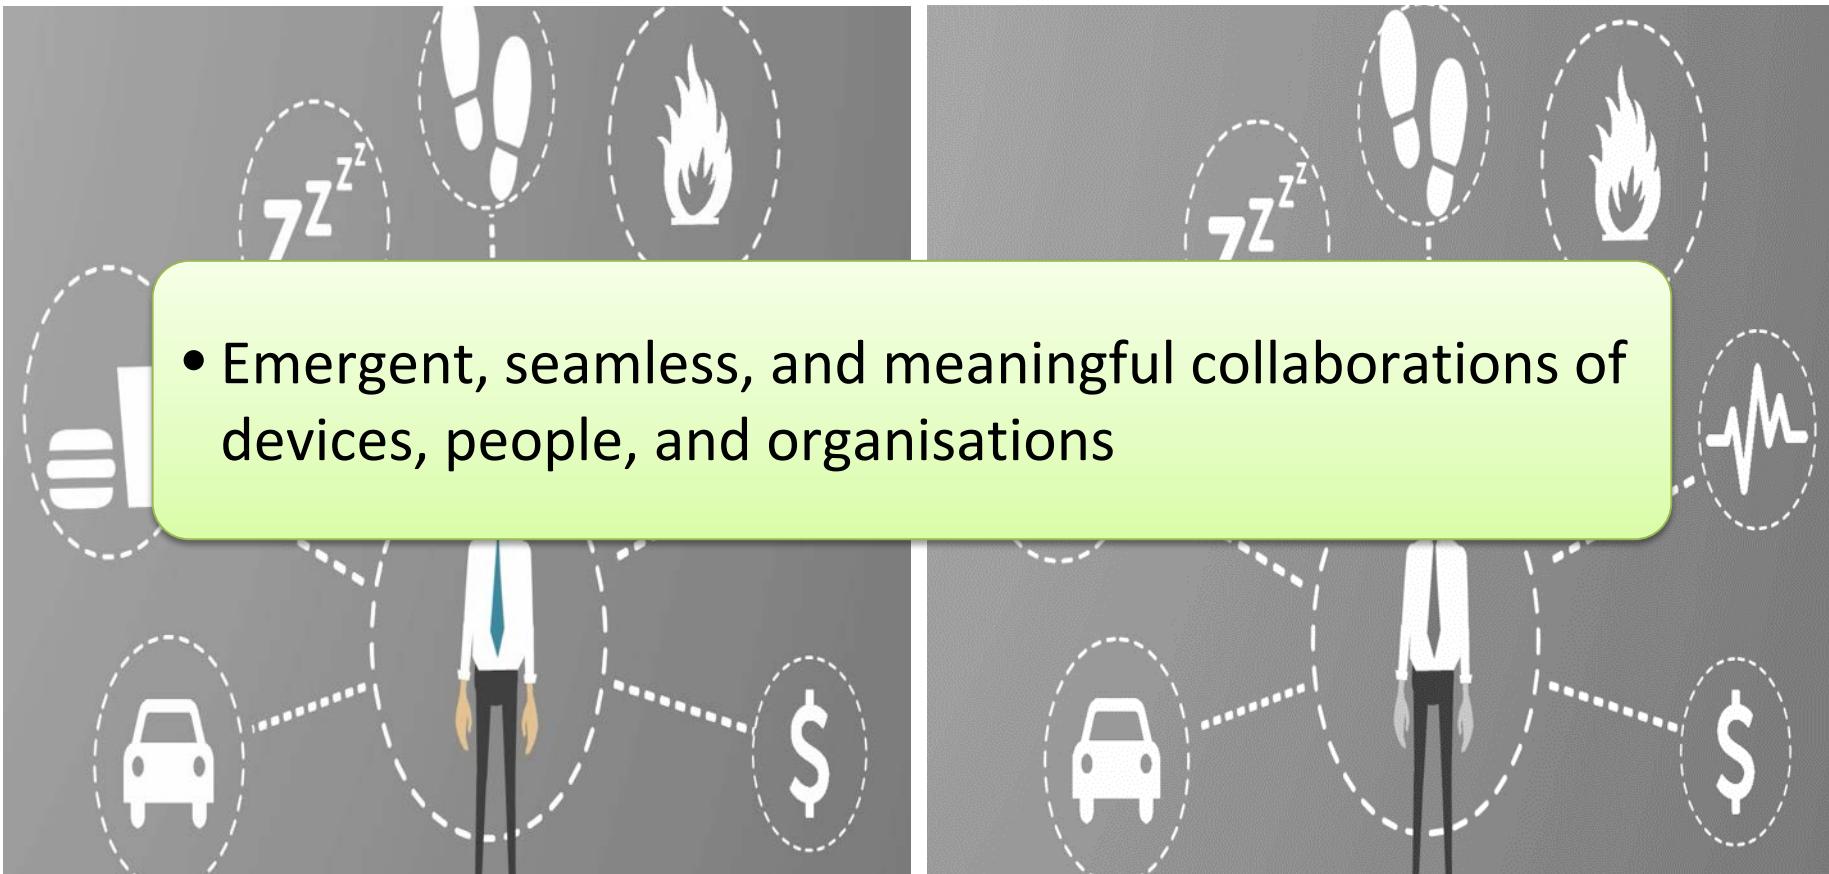

[www.youtube.com/watch?v=pQdGoLSIXIM](https://www.youtube.com/watch?v=pQdGoLSIXIM)

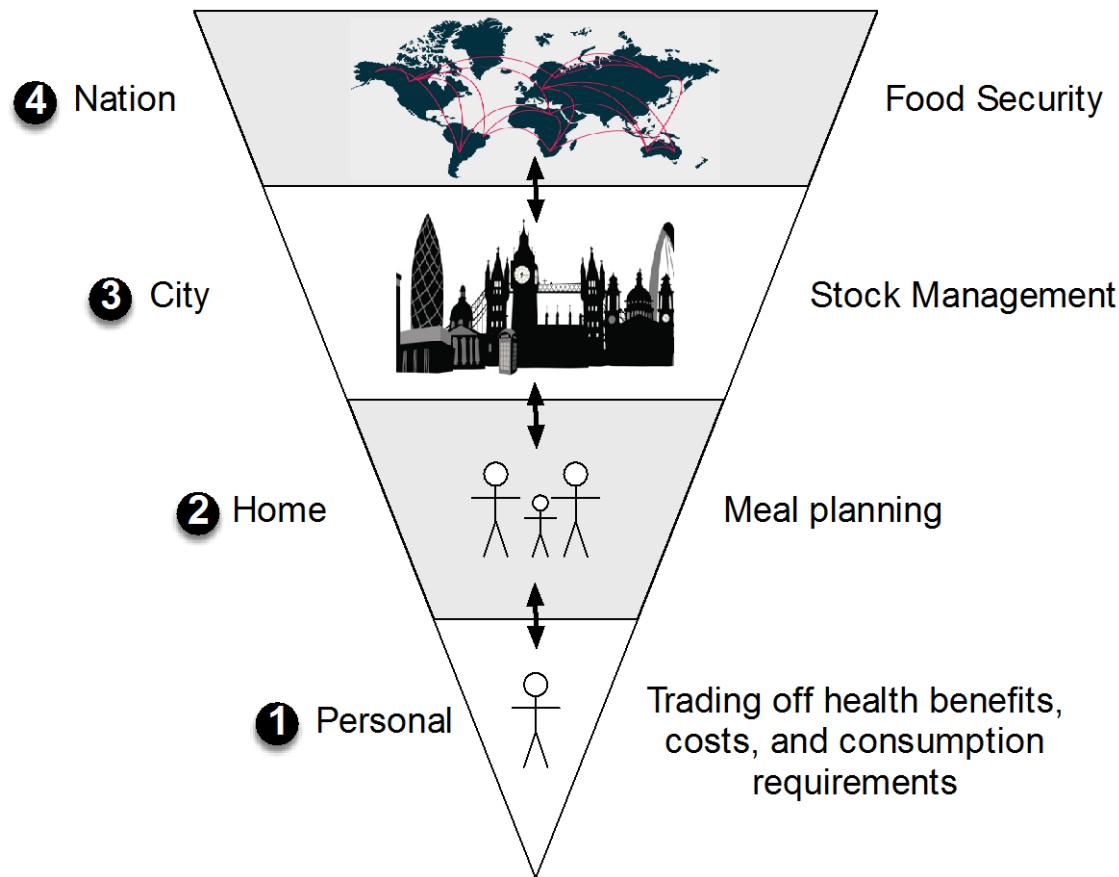

[www.youtube.com/watch?v=rN\\_2HLsKIZY](https://www.youtube.com/watch?v=rN_2HLsKIZY)

# Interoperability

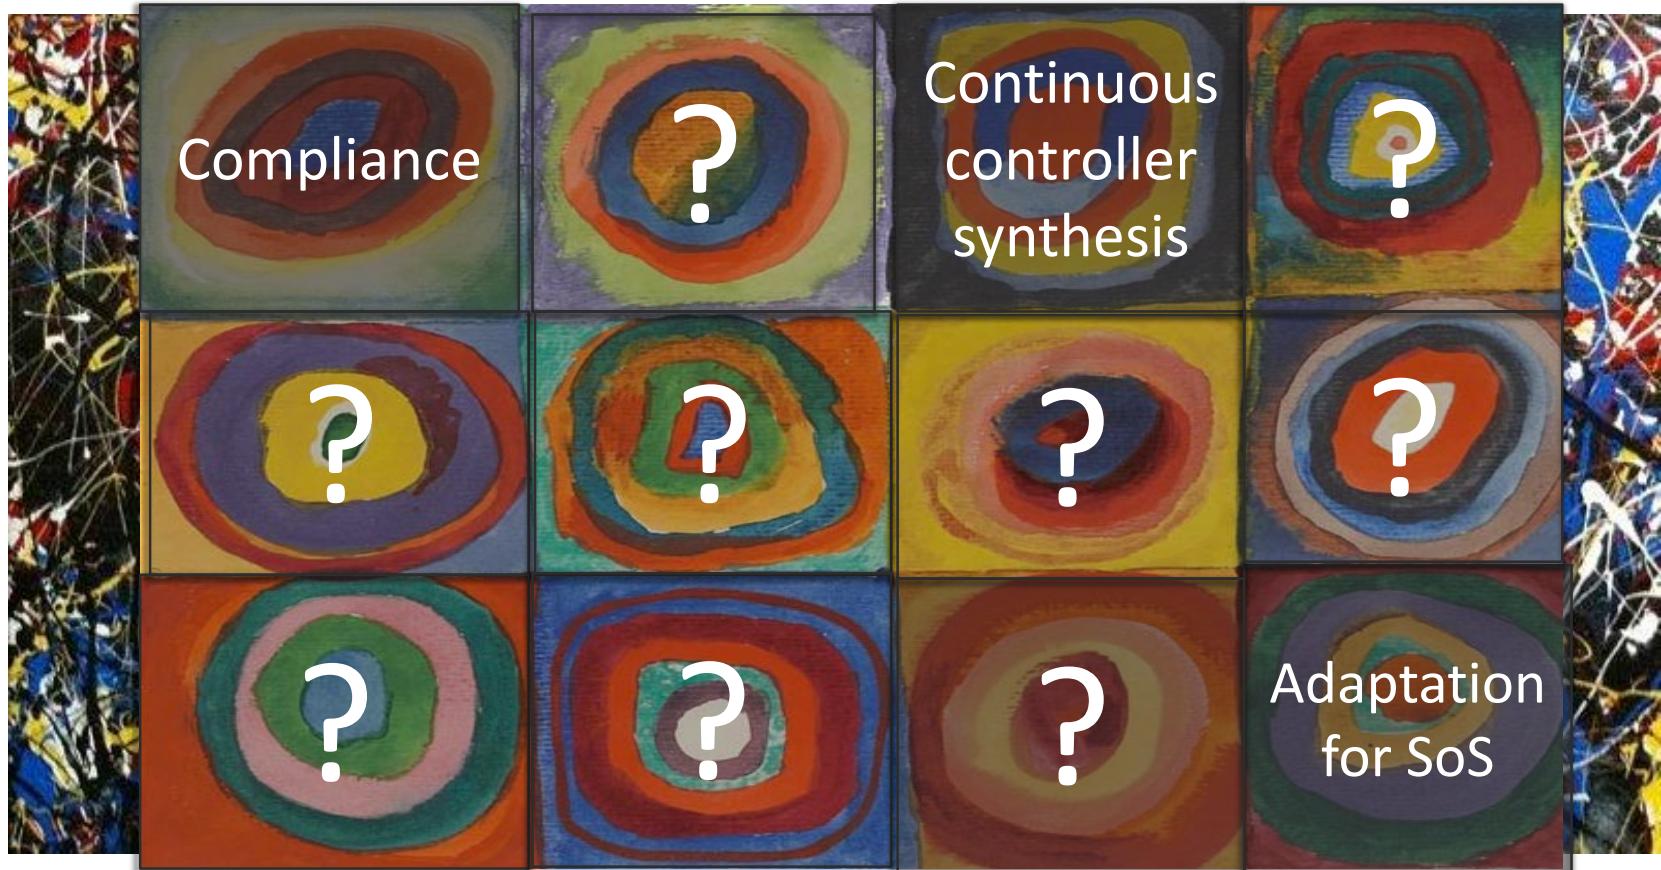

- Emergent, seamless, and meaningful collaborations of devices, people, and organisations

# From Individual to Nation

# Next...

# Thank you
